The following is an examiner's statement of reasons for allowance: the closest prior art of Crane, et al. and Denenberg, et al do not disclose or fairly suggest, among other things, a collation section configured to calculate: a degree of deviation between digital data representing a shape, area, and color of a target work to be identified and the digital data stored in the work storage; and a degree of deviation between digital data representing the color in accordance with color fading and change of color. These features in combination with all of the other elements of the claims are not disclosed or fairly suggested by the closest prior art of Crane, et al. and Denenberg, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
